

PRESS RELEASE

A taste of working life for students at Donaueschingen secondary school during a visit at FB Food GmbH

Hüfingen, July 18, 2024 - As part of the career information project days, the students of 9th grade at the Realschule Donaueschingen had the opportunity to get to know the company FB Food GmbH better. Nadja Fesenmeyer presented the company and possible apprenticeships before the students were given a tour of the production facility and were able to see for themselves.

During the visit, the young people had the opportunity to put together their own personal muesli and taste it on site. The aim of this event was to give the students an insight into the work processes at FB Food and to introduce them to possible apprenticeships, such as industrial clerks with an additional qualification in foreign trade or the areas of logistics and food technology. Various employees presented their professions live. In addition, the current intern reported on the varied experiences she gained during the week and recommended a internship at FB Food.

"We are delighted with the students' interest and hope that their visit has helped them to find their way in the world of work. Perhaps someone has also acquired a taste for the diverse professional fields in the food industry", Nadja Fesenmeyer.
